

I am the caregiver for my adult brother who has a developmental disability, and this was a great personal opportunity to share in the discussion with others in my situation. I am also an Educator for children and adults with autism. I found this webinar meaningful in both aspects.”

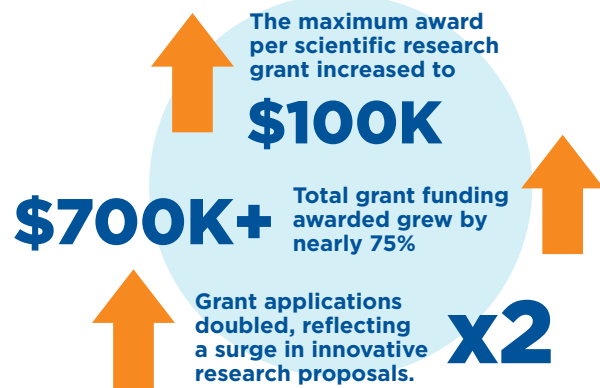

**Tricia Streharsky**

Community Support Specialist, Ohio  
Webinar - Perspective: Adult sibling with profound ASD

## Advancing Research

### Significant increase in funding

We recognize the urgent need for answers in biomedical autism research. To meet this need, our board approved a significant increase in grant funding. We are proud to support groundbreaking research.

### What our webinar attendees are saying:

- 84%** Rated the webinar “Excellent”
- 83%** “This will help me improve my patient care”
- 98%** “I increased my knowledge about autism”
- 60%** Would attend another webinar

## Advancing Community

### Worldwide Resources and Outreach

ARI believes inclusive research and education are key drivers of an evolving, highly individualized standard of care for autistic people.

## Advancing Education

### Parents, Medical Professionals, and Researchers

ARI’s webinars focus on the unique needs and strengths of autistic people and empower the community to develop appropriate strategies to support health, well-being, and overall quality of life.
