

We are looking for...

- Siblings of a child with autism with both children between 7-11 years of age and their parents

Participation involves...

- Parent surveys (~20 minutes)
- A child survey (~10 minutes)

To learn more...

- This research is being conducted by Paige Furano who can be contacted at pf14@fordham.edu

Help us explore sibling dynamics in autism.

Are you the parent of a neurotypical child (age 7–11) who has a sibling with autism spectrum disorder?

We want to hear from you!

You and your child are invited to take part in a voluntary research study by completing a one-time survey.

[Click here](#) to access the survey.
